## How to get refills

### When should I use a retail pharmacy?

Use your local retail pharmacy for the first 30-day prescription of a maintenance medicine you get from your doctor. Also use your local retail pharmacy if you get a prescription for an acute condition, like an infection.

### When will I get my medicine?

Your order should arrive 7 to 10 days after we get your prescription. We may need to contact your doctor for more information. To avoid delays, be sure to fill out all forms completely and include payment if you know the amount due. Orders with more than one prescription may be shipped in separate boxes.

### How much are the shipping costs?

Standard shipping is free. You can choose expedited shipping for an extra cost if you want to get your medicine sooner. This option will only impact the shipping time, not how long it takes us to process your order.

### What if I don't receive my order?

It is our top priority to make sure you have the medicine you need. If you do not get your order within 10 days, please call 800-424-8274 (TTY 711).

### Do prescriptions expire?

Most prescriptions, including refills, expire within six months to one year from the day the doctor wrote them. If this happens you will need a new prescription from your doctor.

### How are controlled substances handled?

A controlled substance, such as a narcotic, has strict guidelines and may be handled differently than a non-controlled medicine. We follow federal and state laws when processing all orders. We will call you if more information is needed.

**For home delivery questions**, call us at 800-424-8274 (TTY 711). We can answer questions, check the status of an order, or place a refill order. Pharmacists are also available to help 24 hours a day, 7 days a week.
