

We're here to help you save

Medtipster partners with your employer or health plan to ensure you get the medications you need at the best price.

How to Use This Document

This formulary list helps you determine which medications are covered by your plan and identify lower-cost options, when available. Use the key below to understand the listing:

BRAND-NAME DRUGS are listed in CAPITAL letters.

Generic drugs are listed in lower case letters.

To maximize savings, look to lowercase options. If your medication is not listed, talk to your doctor about switching to a covered alternative.

Medtipster Formulary Marketplace — Select

The following is a list of commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription plan. Inclusion on the list does not guarantee coverage.

The following list is not a complete list of over-the-counter [OTC] products and prescription medical supplies that are on the formulary. The only OTC products and prescription medical supplies that appear on the list are in contracted classes.

PLEASE NOTE: Brand-name drugs may move to nonformulary status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your prescription plan. For specific questions about your coverage, please call the phone number printed on your member ID card.

KEY

[INJ] – Injectable Drug

[OTC] – Over-the-counter Product

[SP] – Specialty Drug

Brand-name drugs are listed in CAPITAL letters.

Example: ABILIFY MAINTENA

Generic drugs are listed in lower-case letters.

Example: ibuprofen

For the member: FDA-approved generic medications meet strict standards and contain the same active ingredients as their corresponding brand-name medications, although they may have a different appearance.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate.

Medication Exclusions List

The excluded medications shown below are not covered on the preferred drug list. If you're currently using one of the excluded medications, please ask your doctor to consider writing you a new prescription for one of the following preferred alternatives. Additional covered alternatives may be available. Costs for covered alternatives may vary. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your plan. For specific questions about your coverage, please call the number on your member ID card. If there is a clinical reason, identified by your doctor, that requires you to continue taking your current medication, your doctor can request a coverage review.

[^] Multisource brand exclusion – The generic equivalent of this brand-name medication is covered under your plan. FDA-approved generic medications meet strict standards and contain the same active ingredients as their corresponding brand-name medications, although they may have a different appearance. As new generic medications become available, additional multisource brand products may become excluded.

[#] Continuation of Therapy applies through June 30, 2026; Excluded for all utilizers effective July 1, 2026.
